### DETAILED ACTION

In view of the Appeal Brief filed on December 1, 2003, PROSECUTION IS HEREBY REOPENED. A new rejection is set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

- (1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,
- (2) request reinstatement of the appeal.

If reinstatement of the appeal is requested, such request must be accompanied by a supplemental appeal brief, but no new amendments, affidavits (37 CFR 1.130, 1.131 or 1.132) or other evidence are permitted. See 37 CFR 1.193(b)(2).

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Marble (U.S. Patent 2,016,968).

Marble discloses a cap between adjacent blocks (5, 6) and comprising a cap portion (8) and a leg portion (9). There are a plurality of ridges (not labeled, outer underside edges of the cap portion) positioned on an underside of the cap portion. These ridges increase the surface

area since they make the underside of the cap concave shaped. The leg portion is insertable into fluidized sealant material (7).

Marble teaches lead as a material of construction (column 2, lines 22-24).

Marble includes the pointed end (10).

Marble positions the seal between horizontal and vertical surfaces (Figure 4).

Marble discloses the method steps. Further regarding claim 10, note that the underside of the cap in Figure 4 makes contact with the sealing material.

### ***Response to Arguments***

Applicant's arguments with respect to claims 1-12 have been considered but are moot in view of the new ground(s) of rejection.
